2012

PROFESSIONAL PROFILE

I am a full-stack web developer with a focus in React/Typescript. I am seeking to join a team where I can develop professionally and personally.

EXPERIENCE

Skookum // November 2018 - present

Software Engineer I - Software Engineer II

- Delivering high quality code to client in an assortment of technologies
- Integrating with client teams and services
- Mentoring junior developers
- Rewriting legacy code in modern frameworks
- Building out mobile application prototypes

UNION // October 2017 - November 2018

Web Developer

- Working on innovative websites for nationally recognized brands
- Using best practices to keep code base clean and efficient
- Building and maintaining reusable React components
- Adhering to all legal and technical requirements as implemented by both the brands and UNION
- Working with a team of developers to maintain version control
- Publishing, deploying and testing

VOLUNTEER

THE IRON YARD // May - June 2017

Lead Crash Course Instructor/Ladies Night Volunteer

- Taught basic programming concepts to beginners and intermediate self-taught developers
- Coordinated with other junior level developers to design a Mario game for the browser
