2012

PROFESSIONAL PROFILE

I am a full-stack web developer with a deep desire to grow. I am seeking to join a team where I can develop professionally and personally.

EXPERIENCE

UNION // October 2017 - present

Web Developer

- Working on innovative websites for nationally recognized brands
- Using best practices to keep code base clean and efficient
- Building and maintaining reusable components within the code base
- Adhering to all legal and technical requirements as implemented by both the brands and UNION
- Working with a team of developers to maintain version control

Verde // March 2016 - May 2017

Assistant Manager

Whisk // March 2014 - May 2016

Brand Manager/Operations Manager

PROJECTS

Full Stat // June 2017 - present

Developer (Independent)

Live: fullstat.herokuapp.com

Repos: github.com/savvmae/FullStat

- Developed a secure API and wrote all endpoints/models using technologies like Node.js, Express, npm, MongoDB, Mongoose and JWT
- Used best practices to make all design and architectural decisions

Marvel Masters // May - July 2017

Developer (Independent)

Live: marvelmasters.herokuapp.com

Repo: github.com/savvmae/marvel

- Built an interactive, arcade-style Marvel game using vanilla JS
- Used HTML5, CSS3 to build out animated features of the game

VOLUNTEER

THE IRON YARD // May - June 2017

Lead Crash Course Instructor/Ladies Night Volunteer

- Taught basic programming concepts to beginners and intermediate self-taught developers
- Coordinated with other junior level developers to design a Mario game for the browser
