2012

PROFESSIONAL PROFILE

I am a full-stack web developer with a deep desire to grow. I am seeking to join a team where I can develop professionally and personally.

PROJECTS

Mooderator // August 2017   Live: mooderator.us
Lead Developer (Student)   Repo: github.com/savvmae/hopper
- Lead a team of three developers using agile methodology
- Used axios promise library to call to multiple API's
- Created a github repository and lead teammates in git work flow

Full Stat // June 2017 - present   Repos: github.com/savvmae/FullStat
Developer (Independent)   github.com/savvmae/FullStatClient
- Developed a secure API and wrote all endpoints/models using technologies like Node.js, Express, npm, MongoDB, Mongoose and JWT
- Used best practices to make all design and architectural decisions

Marvel Masters // May - July 2017   Live: marvelmasters.herokuapp.com
Developer (Independent)   Repo: github.com/savvmae/marvel
- Built an interactive, arcade-style Marvel game using vanilla JS
- Used HTML5, CSS3 to build out animated features of the game

VOLUNTEER

THE IRON YARD // May – June 2017
Lead Crash Course Instructor/Ladies Night Volunteer
- Taught basic programming concepts to beginners and intermediate self-taught developers
- Coordinated with other junior level developers to design a Mario game for the browser

EXPERIENCE

Verde // March 2016 – May 2017   **Whisk // March 2014 – May 2016**
Assistant Manager   Brand Manager/Operations Manager
